Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Tuesday 19 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Becoming dry with clear spells overnight. A cooler night.

This Evening and Tonight:
Cloudy with outbreaks of rain or drizzle at first, then becoming largely dry with some clear spells developing overnight. Winds will be easing and it will be a much cooler night compared to last night, especially in rural spots. Minimum temperature 8 deg C (46 deg F).

Wednesday:
Largely dry and bright, with some sunny spells, especially at first. Cloud will increase to perhaps bring some rain into the far south of the region during the afternoon. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:
Bright with scattered showers Thursday, but becoming colder with coastal gales. Further showers and coastal gales Friday, otherwise bright and breezy. Dry, bright, and breezy on Saturday, becoming milder.
